He is a master at reading and analyzing the dance floor to make sure everyone is always having fun!

What are the differences between the Basic and Upgraded packages?

The Basic DJ package is your average 5-11pm Reception timeline coverage. Speakers, Dance floor lights, and Microphones. If you don't need ceremony coverage and are just looking for a good DJ to play music for your guests without any extra bells and whistles, this package is perfect for you. We will pick your DJ based on availability and who would be a good match for your event.

The Upgraded package Includes Ceremony sound coverage, Uplighting around your reception venue, and the ability to choose any of our wonderful DJs. We have several rising stars in our company who provide a high value like DJ Joe that you are welcome to choose from.

Down Payment Policy:

a 35% deposit is required to secure your date. It is partially refundable. We can refund 50% of your total deposit amount as long as you cancel 30 days before the agreed date. We are unable to provide a refund if you cancel after that 30 day deadline.
