## **What is the difference between Deluxe and Standard DJs?**

- Deluxe DJs are DJs that are in high demand and have many 5 star reviews to bolster a higher quality service.
  - Deluxe DJ sets will also have better speakers and dance floor lights, providing a higher quality and huge sound for your dance floor.
- Standard DJs may have less official experience, but have passed the high standards required to graduate the Pro Beatz Training program. We offer these newer DJs at a more affordable cost for couples looking for passionate and fun DJs who are eager to prove they have what it takes to become a Deluxe DJ!
  - Standard DJ equipment will still provide quality speakers, microphones, and dance floor lighting, but more basic and streamlined equipment for simpler transport.
